CS 3604 Fall 2025 - Project 4 Grading Rubric (GTA copy)

CS 3604 Professionalism in Computing -- Fall 2025 -- Project 4 rubric (GTA: David Barron)

Scoring (100 points)

Criterion	Points	Full credit means
Case analysis	30	identifies all stakeholders and at least two competing obligations
Use of ethical frameworks	25	applies two frameworks correctly and compares their conclusions
Recommendation	20	specific, actionable, and consistent with the analysis
Sources	10	at least four credible sources, cited consistently
Writing	15	clear structure, within 1,800-2,200 words

Late policy (from syllabus)

Each student has three late days for the semester, usable on P1-P4 but not the final project. Late days are counted in whole days from the deadline (11:59 pm). Submissions after late days are exhausted lose 10% per day. Canvas timestamps are authoritative.

Grader notes

- 64 students; P4 split with the other GTA by last name (A-L me).
- Deduct for word count only beyond 10% outside the range.
- Flag any submission that reads as generated without disclosure; do not deduct, send to instructor.
- Regrade requests go through the form within 7 days; I respond within 5 days.
