UIST 2026 Program - Session: Learning & Tutoring

UIST 2026 -- The ACM Symposium on User Interface Software and Technology

Program excerpt -- Wednesday, October 7, 2026

Session: Learning & Tutoring

Session chair: Tomás Reyes

Time: 10:40 - 12:00. Each paper: 15 minute talk + 5 minutes Q&A.

Time	Paper	Presenter
10:40	TutorTrace: Classifying Learner States from Replayed AI-Assisted Programming Sessions	David Barron
11:00	ScaffoldLens: Visualizing How Hints Change Novice Code Over Time	Mira Castellanos
11:20	Pair-Prompting: Co-Writing Assistant Requests in Collaborative Programming Labs	Anders Holm
11:40	Chalkline: A Pen-Based Tutor for Stepwise Algebra with Live Misconception Feedback	Yusuf Demir

Presenter information

Please arrive in the session room 10 minutes before the session starts and introduce yourself to the session chair. Rooms are equipped with HDMI and USB-C; bring adapters for other connectors. Slides must be 16:9. A presenter view is available if your laptop supports a second display. Session chairs will give a 5-minute and a 1-minute warning.

Accessibility

Live captioning is provided in all paper sessions. Presenters are asked to describe key figures verbally and to avoid relying on color alone.
